SUMMARY

- Final-year Computer Science student with practical experience in building full-stack applications using the MERN stack and integrating RESTful APIs.
- Proficient in Java and data structures, with consistent participation in competitive programming on LeetCode, GeeksforGeeks, and CodeChef.
- Solved over 800+ problems across LeetCode (400+) and GeeksforGeeks (200+).

TECHNICAL SKILLS

- Programming Languages:** Java, JavaScript, Python, C, C++, HTML5, CSS3
- Frameworks & Libraries:** React.js, Node.js, Express.js, React Native
- Databases:** MongoDB, MySQL
- Development Tools:** Git, GitHub, VS Code

PROFESSIONAL EXPERIENCE

- Full-Stack Developer Trainee** *[Technical Hub]* 2024
 - Completed a 12-month MERN stack training program through hands-on projects and team collaboration.
 - Created 3+ full-stack applications with REST APIs, improving performance and reducing response time by 25%.
 - Contributed in agile teams of 4–6 using Git workflows, participating in weekly code reviews to ensure code quality.

KEY PROJECTS

- Connect – Multi-Service React Native Application** June 2025
 - Designed a GPS-enabled blood donation feature used by 100+ users with real-time tracking and notifications.
 - Implemented a women's safety module with OTP-based authentication and emergency alert automation.
 - Developed ambulance routing with traffic-aware navigation and hospital integration for better emergency response.
 - Technologies:** React Native, Spring Boot, Express.js, MongoDB, GPS APIs
- Notify Nation Web Application** *[Repo | Live Demo]* October 2024
 - Built an exam portal enabling students to apply for 100+ jobs with online forms and admit card downloads.
 - Added 4+ mock tests and 20+ preparation materials to boost engagement and preparation effectiveness.
 - Automated document generation and user communication via email workflows and secure authentication.
 - Technologies:** React.js, Node.js, MongoDB, Express.js, Email APIs
- Recipe Finder Web Platform** *[Repo | Live Demo]* July 2024
 - Developed a responsive recipe platform with keyword and ingredient search across 1000+ recipes.
 - Integrated external APIs for recipe data and implemented an admin dashboard to manage 50+ entries.
 - Refined UI with mobile-friendly layouts and interactive step-by-step cooking instructions.
 - Technologies:** HTML5, CSS3, JavaScript, REST APIs, Responsive Design

CERTIFICATIONS & ACHIEVEMENTS

- IT Specialist - Java Programming** [Badge] 2024
- IT Specialist - JavaScript Development** [Badge] 2025
- ServiceNow:** Certified System Administrator & Certified Application Developer 2025
- NPTEL:** Cloud Computing (75%) & IoT (73%) 2024
- TechnicalHub:** Project Milestone [Badge] 2025
